Hackathon (May 15th)

Do you want to get your tools known and used by developers? Do you want to show how great is your team and the way your company works? Do you want to support the developer community? Do you want to challenge developers? Then this is your sponsorship! *

- Collaborative hackathon (Maximum of 30 people)
- Topics must be related to the JOTB ones (Distributed Systems, Big Data in the Business, DevOps and Architectures, Functional Programming, IoT and embedded, JVM or .Net, Data Visualisation)
- The winners alongside the organisers will have a slot on the main hall to present the Hackathon.
- Free admission
- Sponsors must provide the resources needed as well as meals for the participants

*All IP generated at the hackathon belongs to the developer. However, to generate the widest benefit from this event, we encourage developers to provide Open Source licenses for the results of their creativity
